Rigid core, or SPC (solid polymer core) is made of a composite core construction and is a step up from traditional solid LVF.

Featuring a higher filler content and higher density, the lack of foaming agent used means air bubbles in the core are omitted; the result is a thinner, harder and stiffer plank.

PVC White Skirting

PVC Skirting is stylish, low-maintenance and designed to be long-lasting. Requiring a simple wipe down to retain its good-as-new appearance and will never need painting or sanding. This makes installation incredibly painless and straightforward; the boards are easily glued into place using adhesive saving you time and effort.
