

Composite Fencing

Elegant modern composite fencing that will enhance any garden!

- ◆ Better. Long-lasting and durable, will not rot or rust
- ◆ Faster. Quick and easy to install.
- ◆ Safer, strong, impact resistant, split and splinter free.
- ◆ Woodgrain effect finish to both sides.
- ◆ Low maintenance– no additional oiling or painting required.
- ◆ Ideal for replacement panels or new build projects.
- ◆ Fade resistant ****can fade up to 10% in the first 6-8 weeks, thereafter stable****

Available in 2 colours:

Hollow fence boards available in grey and brown with a woodgrain effect Finish to both sides.

Sizes 150 x 1800mm

Easily installed aluminium posts are available with two different anchoring systems: bolted directly to pre-existing concrete base using flat bottomed supports; or impaled in concrete using spike supports.

Featuring 4 separate slots, the aluminium posts allow for mutli-directional installation.

Boards can be used as replacement panels with our unique composite post adaptor—simply slot the composite post adaptor into the concrete channel in existing concrete posts and slide the boards in place. Use in conjunction with the starter rail and finishing trim kit to complete the look.
