ALUMINIUM FENCE POST/ CAP

STARTER RAIL AND FINISHING TRIM

CONCRETE POST ADAPTOR

ALUMINIUM POST FINISHING TRIM

NEIGHBOUR ADAPTOR TRIM (L & R HAND)

Easily installed aluminium posts are available with two different anchoring systems: bolted directly to pre-existing concrete base using flat bottomed supports; or impaled in concrete using spike supports.

Featuring 4 separate slots, the aluminium posts allow for multi-directional installation.

Boards can be used as replacement panels with our unique composite post adaptor—simply slot the composite post adaptor into the concrete channel in existing concrete posts and slide the boards in place. Use in conjunction with the starter rail and finishing trim kit to complete the look.
